Abstract

Our book "Trust-region methods" was published by SIAM in August 2000. This note contains a current list of errata.

A list of Errata.

Here is our list of currently-known errata. If you find any further errors, typos or simple misunderstandings, please let us know, and we will add your comments to the list.

Page 42, Theorem 3.2.7: Equation (3.2.15) should read

$$\underset{x \in \mathbb{R}^n}{\text{minimize}} \quad f(x,p) \text{ subject to } c_{\mathcal{E}}(x,p) = 0 \text{ and } c_{\mathcal{I}}(x,p) \geq 0, \qquad (3.2.15)$$

Page 45, Theorem 3.2.9: The theorem actually holds without requiring either AO.1 or AC.2. See Gould and Tolle (1972), and M. Guignard, "Generalized Kuhn-Tucker conditions for mathematical programming problems in a Banach Space", *SIAM Journal on Control*, **7**, (1969), pp. 232–241.

Page 827: R. H. Byrd, J. Ch. Gilbert and J. Nocedal (1996) appeared in a slightly modified form in *Mathematical Programming A* **89**(1), (2000), pp. 149–185.

Page 866: N. I. M. Gould and Ph. L. Toint (2000) appeared as pp. 149–178 in the proceedings, which were actually titled *System Modelling and Optimization, Methods, Theory and Applications*.

Page 871: N. J. Higham (1995) appeared in *SIAM Journal on Matrix Analysis and Applications* **18**(1), (1997) pp. 52–65.

Page 887, J. M. Martínez (1997) should be J. M. Martínez (1987).

Page 954, Author's index: "Kanzow, Ch., 776" should read "Kanzow, Ch., 776, 777".

Page 955, Author's index: An entry for "Munson, T. S., 777" has been omitted.

Back cover, lines 1–2: This should read ". . . , a class of numerical algorithms for the solution of nonlinear nonconvex optimization problems."
